Cootie Catcher Game

- Step 1. If you start with a standard sheet of paper you will need to make it square by folding one corner over to the edge and cutting off the extra flap.
- Step 2. Unfold it and you have a square.
- Step 3. Fold the other corners and crease again. Unfold so you are back to the square.
- Step 4. Next, fold each corner point into the center of the paper. Use the creases as a guide to help keep your folds straight.
- Step 5. With all four corners folded it should look like this.
- Step 6. Next, flip the whole thing over to the other side (for some reason a lot of people miss this step!!!!)
- Step 7. All four corners points into the center again.
- Step 8. Lift up the flaps and write the fortunes under here.
- Step 9. Write the numbers 1-8 on each of the triangles.
- Step 10. Flip it over and color or write the name of a different color on each flap.
- Step 11. Crease it along the flap lines, then flip it back over and stick your two thumbs and two forefingers into each of the four flap pockets.
- Slip your fingers all the way up to the corners and then bring your fingers together. Your fingers should press the center creases so that all 4 flaps meet at a point in the center.
